--- Race Course

--- Figure 9 Tour

The DeClue and Green Rock trails are now the same between the Roundhouse and Scenic Loop roads. Total length of the Green Rock is 14.5 miles, of which 7.8 are within Greensfelder. All trails in the park are available for hiking, biking, and equestrian use, but the ones shown here are the most suited for biking.

Because of the terrain at this park, most of these trails are slow to dry. There are very steep sections which are not much fun to ride when wet. Please use your best judgment on deciding whether to ride them when they are wet.

Please be courteous to other trail users, and always yield to equestrians.
